Elisa Baggio Saitovitch: Chair
(elisa@cbpf.br)

Marcia Barbosa: Co-chair
(barbosa@if.ufrgs.br)

SCOPE

The primary purpose is to understand the severe under-representation of women in physics worldwide, and to develop strategies to increase their participation. The conference will serve as an initial focal point for ongoing activities to implement these strategies. Moreover, the event will serve also as a meeting point of the different groups that were formed during the first event, that will now be able to share experiences in promoting women in physics. The new aspect in this second conference is the presentation of scientific works by the participants to stimulate the cooperation among the women in physics. The information regarding the First IUPAP International Conference can be found at <http://www.if.ufrgs.br/iupap>.

PROGRAM

May, 23rd: Conference Opening, Invited Talks, Round Table, Working Groups and Poster Session.

May, 24th: Invited Talks, Working Groups and Poster Session.

May, 25th: Summary of the Working Groups and Talks open to the community.

TOPICS

- Attracting Girls into Physics: Stereotypes, Role Models, Schools, Teachers.
- Launching a Successful Career in Physics: Mentoring, Evaluation, Different Career Path, Visibility, Getting a Reputation.
- Getting Women into the Physics Leadership Structure Nationally and Internationally.
- Improving the Institutional Structure and environment for Women in Physics – working conditions, drop out in the career.
- Learning from Regional Differences: North/South of Europe, Asia, Latin America, USA.
- Balancing Family and Career.
